

*A wide range of colors
for GreenCoat products*

Choosing the right GreenCoat product is easy!

GreenCoat™ is SSAB's brand for innovative, eco-conscious color coated steel solutions for the building industry. As the greenest and one of the most comprehensive offerings of high quality color coated steel for exterior building applications, GreenCoat products provide many distinct advantages.

All GreenCoat products are made with premium Nordic quality steel, with most featuring a Bio-based Technology (BT) coating

made with Swedish rapeseed oil, which is unique on the market. The patented BT coatings do not only offer environmental advantages, but also increased performance.

Below you can find the right GreenCoat product for your application. GreenCoat products are eco-conscious, UV-resistant (up to RUV4), energy efficient, scratch resistant, have good formability and offer color stability over the years.
